

Whether bare root or in a pot, plant perennials just below the soil's surface

Name	spacing	HT	Width	Sun	Prt shde	Ful shade	dry	normal	wet	WHZ	Additional Information
Agastache 'Blue Fortune'	1-2'	2-3'	1-2'	x				x		6-9	Fragrant plant attracting many pollinating insects; best in full sun; deciduous; cut back after frost.
Eupatorium dubium 'Little Joe'	2-3'	3-4'	2-3'	x	x			x	x	4-8	Butterflies are attracted to this plant; likes full sun and fairly moist soils, but performs well in good garden soil with good drainage; deciduous; leave stalks and seed heads for winter
Helleborus Hybrid Mix	1-2'	12-15"	1-2'		x	x	x	x		4-9	Very critter resistant; avoid dry or waterlogged conditions and provide windbreaks in windy areas; thrives on compost and organic matter; will tolerate sun to shade, but prefers part shade.
Hemerocallis 'Happy Returns'	12-18"	12-18"	12-18"	x				x		4-9	Plant in fertile, well-drained soil in full sun; divide every 3-5 years to keep vigorous; topdress with compost annually; deadhead spent flowers to encourage rebloom.
Hemerocallis 'Pardon Me'	12-18"	12-18"	12-18"	x				x		4-9	Same as above
Hemerocallis 'Stella d'Oro'	12-18"	8-12"	12-18"	x				x		4-9	Same as above
Hemerocallis dwarf mixture	12-18"	8-18"	12-18"	x				x		4-9	Same as above
Nepeta x faassenni 'Walker's Low'	1-2'	12-18"	12-24"	x	x		x	x		5-9	Prefers well-drained soil in full sun; prune off spent blooms to encourage rebloom
Rudbeckia subtomentosa 'Henry Eilers'	1-2'	4-5'	1-2'	x			x	x		5-9	Prefers full sun in rich soil; prune back 1/2 its height before July 1st to achieve a more compact plant.
Vernonia glauca	1-2'	3-5"	1-2'	x				x		6-8	Grows best in light, fertile, moist soil; leave bloom stalks to provide winter interest and food for the birds.
Viola 'Etain' violaceae	6-8"	5-7"	6-12"	x				x		6-8	Will be a wonderful companion 'shoes and socks plant' for spring flowering bulbs; prefers good garden soil and adequate moisture in full sun to part shade.
